Topic: AP&IB Exam Results Board Report – October 2019

Presenter: Nicola Golby
Meeting Date: October 9, 2019

Background

Advanced Placement, offered at Hunting Hills, is a rigorous academic program that provides students with the opportunity to experience post-secondary level studies while they are in high school. Scores on AP exams range from one to five. In 2018/2019, 111 students wrote 172 AP exams in Biology, Calculus, Chemistry, Chinese Language and Culture, English Language and Composition, English Literature and Composition, Physics 1, Physics 2, Psychology, and Studio Art. The mean score was 3.66 out of 5. The global mean last year was 2.74, the Canadian mean was 3.36. 86.5% of the AP students at Hunting Hills received passing marks of 3 or higher on these exams. This is the highest we have had as a school in the last 5 years. 59.9% of the students achieved marks of 4 or 5 on these exams. 40 students received a 5 on this year's exams. The 4s and 5s are the marks that most universities accept in giving credit for university courses.

Last year, HHHS had 2 AP Scholars, 6 AP Scholars with Honors, 5 AP Scholars with Distinction, and 3 National AP Scholars. Some of these students are taking as many as 8 exams while in high school and scoring a 4 or 5 on all of them. This is a remarkable achievement when one considers that these are all university-level exams that they completed in high school.

The International Baccalaureate program, established at Lindsay Thurber over 25 years ago, continues to thrive. The IB program offers an academically challenging school experience designed to better prepare students for post-secondary schooling. The program also offers post-secondary level courses, and students may receive up to a full year of university credit for courses completed at high school. In May, 61 students wrote 139 exams in English and World Literature, Japanese, Spanish, French, Biology, Chemistry, History, Mathematics and Visual Arts. We currently have 10 students in the process of completing the Full IB Diploma. Seven students completed the full diploma in May 2019. The cumulative non-weighted average for the IB exams written by LTCHS students was 4.8 out of a possible score of 7.0. The worldwide average for the same subjects was 4.5. The International Baccalaureate Organization considers scores of 4.5 and above to be commendable.

Board Agenda Item

Topic: Report from Learning Services, Curriculum

Presenter: Nicola Golby
Meeting Date: October 9, 2019

Background

The Learning Services Department supports teaching and learning across the curriculum with a focus on student achievement and the provision of equitable learning opportunities. While there are a number of initiatives currently occurring, the following items may be of particular interest to the Board of Trustees.

Excellence in Instruction

Excellence in instruction is a major focus across the Learning Services department, and it was also the theme for the fall retreat for RDPSP administration. Multiple principals and vice-principals presented ideas and strategies to improve teacher's skills in regard to planning, assessment, and instruction. Follow up from the Learning Services Department will include visits with school administrators to discuss achievement and the analysis of provincial achievement tests and diploma exams. Additionally, Learning Services Coordinators will continue to work in all Red Deer Public Schools to provide professional development and teacher training. Professional development for teachers covers numerous topics, but the majority of presentations center around literacy, numeracy, and achievement in the core subject areas.

Literacy

Elementary and Middle School teachers continue to gather reading benchmarking data on each student to inform instruction. All new teachers will receive training on the Fountas and Pinnell Benchmarking system. As a district, we have improved from 80% of students reading at grade level in June 2018 to 82% of students reading at grade level in June 2019. The most significant improvement in reading skills was observed at the middle school level. While reading continues to be a priority, Learning Services will continue to increase the focus on the writing component of the Language Arts curriculum. In 2019-20, nine elementary schools will be taking part in a K - 5 writing pilot program. Additionally, there will be an increased opportunity for schools to utilize the Highest Level of Achievement Test (HLAT) writing assessment coupled with professional development on collaborative marking to achieve common writing expectations. In addition, all K-5 teachers will be receiving professional development on writing instruction in November 2019 in grade-level cohorts.

Numeracy

Red Deer Public Schools will continue the focus on improving achievement in math during the 2019-20 school year. Strategies for improving math achievement at the elementary level include three professional development sessions, focused on math pedagogy, for each teacher in kindergarten through grade five. Additionally, the Learning Services Numeracy Coordinator will continue to present to staff throughout the year and assist with analyzing data from the MIPI and other school-based assessments. At the middle and high school levels, there will be an increased emphasis on provincial achievement test and diploma exam analysis coupled with

Board Agenda Item

opportunities for focused collaboration. The focus on effective planning, assessment and instruction will continue district-wide.

High School Collaboration

Red Deer Public High Schools have committed to an initiative on working collectively in the 2019-20 school year to impact high school achievement. Each of the four high school principals has committed collaborative time for departments from each school to work together. A focus will be placed on building relationships, sharing of best practices, and using data to improve achievement.

Early Learning

The focus for early learning will be placed on building common practices to improve learning opportunities in literacy and numeracy. Four sessions are planned for kindergarten teachers. Three sessions will focus on early numeracy skills, and the fourth will focus on effective universal programming for developing oral language. Additionally, the Early Learning Coordinator will meet with schools to discuss programming and best practices to identify and address achievement gaps.

New Curriculum Update

Red Deer Public Schools continues to wait for confirmation from the Alberta Government in regard to the implementation of a new curriculum.

The Logo Design

Any of these versions are authorized for use. The Red Deer Public school logo may only be used by external organizations with prior approval of the Superintendent.

The story behind the logo...

Red Deer Public Schools – – we create an academic environment that produces students “stars.” The image focuses on the process which draws you visually on the left side from the “open books” of learning to the right edge of the logo where the complete process yields a student star! In between you have the staff helping the student with hands downward – – the students hands held up reaching towards the staff. Significant is the graphic shape of the child, that of a “star” suggesting that the emphasis of Red Deer Public Schools is to create academic excellence! The colour red, for our student, was chosen for its connection with excellence as well as our city’s name.

Our word mark...

- *Your Children...*
 - Stresses the important relationship we have with parents and families.
- *Our Students...*
 - Students are the priority of Red Deer Public Schools.
- *Everyone’s Future...*
 - Demonstrates a commitment that children are our future and that education benefits the entire community.

Board Agenda Item

Topic: ASBA Report

Presenter: Laurette Woodward

Meeting Date: October 9, 2019

Background

Vice Chair Laurette Woodward like to share the following highlights from the September 23, 2019 ASBA Zone 4 meeting held at Wolf Creek Schools:

- ASBA is charging 50% less for the FGM and SGM this year to make it easier for boards to participate in CSBA to be held in Banff in July 2020
- Addressed concerns about ASBA website and access for superintendents and their assistants. Proposed solution: to leave the material behind the wall, but give staff an access code that will allow them access to specific material.
- ASCA has asked ASBA to meet with individual zones.
- ASCA, ASBA, ASBOA, CASS and the provincial government has agreed to a retreat for executive committees.
- ASBA's meeting with the education minister in early September, the minister said "there will be no fewer school boards in Alberta" in her term of office.
- Boards can expect questions about the funding formula. The education pie in Alberta is \$7.2 billion for public, separate, private and charter schools. Funding formula needs to fit within that.
- ASBA asking for feedback regarding the youth summit held at the ASBA SGM. Would boards like to see that summit continue to be attached to SGM or be held somewhere else?
- Conversation at ASBA Zone 4 about the ministerial order on naming of school jurisdictions, and whether the 33 public boards would choose to agree to add the word public to their name. Concerns expressed over the cost of a name change, and what is behind the change. Also questions about the explanation from the ministry about 'consistency' - what does this really mean? Wolf Creek expressed they are willing to add public to their name. Several comments about ensuring this discussion does not divide our zone, or other school jurisdictions.
- ASBA is concerned about McKinnon report. Didn't feel it compared apples with apples. Specifically, the 24% admin costs that took in not just administration costs, but also infrastructure and transportation costs. Concern from a trustee that this was intentional to make the conversation go a certain way.
- Report from Alberta Education representative. October 5 deadline for seclusion rooms change. Jurisdiction's don't have to decommission seclusion rooms. Even if you don't have one - just say you don't have one. If you add one - then there is a reporting requirement.
- PUFF funding. AB Ed will engage with staff in our jurisdictions. What is working and not working. In the past, staff have had to get pre-approval for furniture and specialized equipment. This year they don't need pre-approval on those items. There will be usual reporting requirements under the funding manual.

Board Agenda Item

- Discussion about grade 3 PATS. There was a mixed opinion in the zone about the value of these exams being reinstated. Because of that, it was decided it would be left up to boards to respond to this individually, as they see fit.
- ASBA presentation about "Choice in Education". At the Zone they collected feedback using a "poll everywhere" platform. Our responses will be reported to the government. Questions included:
 - What are the potential impacts of the *Choice in Education Act* on your school board and in your community?
 - What are the key areas to focus ASBA advocacy efforts?
 - How can your zone/board engage locally to advocate?
- ASBA leadership encouraged trustees to consult with their secretary treasurer about the input on the assurance review, inclusive education, and comparing ASBOA and CASS reports, etc. As trustees we need to understand the details so we can work in alignment with these groups.
- ASBA considering a new strategic plan. They asked trustees about current statements: values, mission, vision, etc. We were also asked about what ASBA needs to do in the areas of 1) people, 2) governance, and 3) services in order to be a world class organization.
- Board showcase - Dual credit opportunities. Started in Wolf Creek in response to student and parent interest. Over the past 5.5 years the program has grown significantly and is seeing, as a result of the program: dropout rate lowered, high school completion rates up, work preparation on the accountability pillar is up.

Recommendation:

The Superintendent of Schools recommends that the Board of Trustees accepts the ASBA Report as information.

Topic: Advocacy Committee Update

Presenter: Nicole Buchanan

Meeting Date: October 9, 2019

Background

Board Chair Nicole Buchanan will provide a verbal update regarding the Advocacy Committee.

Trustees will find attached a letter from the PSBA regarding the removal of "Public" from the name of school divisions addressed to all Alberta School Board Chairs.

Recommendation:

The Superintendent of Schools recommends that the Board of Trustee accept the update from the Advocacy Committee as information.

September 20, 2019

Via email

To: All Alberta Public School Board Chairs

Dear Board Chair:

Re: Ministerial Order #34: Continuance of School Divisions and Board of Trustees Order (August 15, 2019)

Dear Colleagues,

Over the course of the past few weeks the education system in the province has been reacting to the naming of school divisions. In a briefing note sent to the field in June, issued by the civil service, the following was presented:

*Proposed for September 1, 2019:
Education Act with proposed amendments in Bill 8*

"Distinctions between school districts, divisions, and regional divisions will be removed. All school authorities will be identified as a Public School Division or a Separate School Division. All numbers in school authority names will be removed." (p. 3, [School Act to Education Act: What is Changing](#))

What was delivered in the Ministerial Order a few weeks later did not fulfil the expectations set out above. All existing school boards with the name "Public" in their legal name saw the word "Public" deleted. All separate school boards had the word(s) "Catholic" or "Roman Catholic" added to their legal name. We have all been informed that jurisdictions are free to "brand" their division in any manner they choose. We consider "branding" as not the legal equivalent to one's legal name. Please note that there was no prior consultation on this matter during meetings with the civil service nor the Minister.

More recent comments by the Minister of Education suggest that she may be prepared to add "Public" to school division names if "all" Public boards made such a request.

PSBAA strongly advocates that every public school division write to the Minister requesting the inclusion of the word "Public" in their legal name. Please be advised that PSBAA sent a letter of concern on this matter to the Minister on September 5, 2019.

Our position on the inclusion of the word "Public" is this: In the same manner that the Minister has the authority to add wording to the legal name of our Catholic colleagues, the Minister can easily resolve this matter by adding "Public" to our school division names at the legal level. While we would hope that all 41 public boards would be in agreement, the requirement of a 100% compliance from all individual boards is problematic, as it has the potential to cause disharmony among public school boards.

DIVERSITY IS A LESSON PLAN FOR LIFE.™

PHONE: 780.479.8080 ADDRESS: #12, 10227 - 118 STREET, EDMONTON AB T5K 2V4 WEB: PUBLIC-SCHOOLS.AB.CA

By adding “Public” to our legal names, all school divisions would be equal before the law, and this would accomplish the same outcome for the Minister regarding all school divisions having equal rights under the MO and reduce red tape. All boards would still enjoy the right to “brand” their school division name according to their local mandate.

To conclude, the word “Public” is as important to our identity as the words “Catholic” and “Roman Catholic” are to our colleagues. We are challenged to accept the non-streamlined name delineation afforded to them as it was not offered to us.

On behalf of all Public School Divisions, we seek equality in our legal identity and the right to identify, by name, who we represent in the collective society. We will make every effort to reach out to the Minister in the hope of finding a satisfactory resolution.

Sincerely,

Cathy Hogg
