

Board Agenda Item

Topic: Tracking Trustee Expenses

Presenter: Colin Cairney

Meeting Date: May 8, 2019

Background

At the regular public board meeting on January 10, 2018, trustees were presented with the option of changing how the board expenses were to be reported for professional development and board assigned work. It was recommended that these two types of expenditure categories be divided into two separate budgets. This would provide trustee with improved tracking of expenses in the 2018/19 school year.

It is requested that Trustees provide their feedback on the new reporting format.

Quality Indicators:

Fiscal Responsibility

R.E 3.4 Ensures the Board has current and relevant financial information.

Recommendation:

The Superintendent of Schools recommends that the Board of Trustees support the recommended feedback provided for the Trustee professional development and board assigned work expenditures reporting review.
